Gli amori difficili Italo Calvino "Se queste sono, per la più grave parte, storie di come una coppia non s'incontra, nel loro non incontrarsi l'autore sembra far consistere non solo una ragione di disperazione ma pure un elemento fondamentale - se non addirittura l'essenza stessa - del rapporto amoroso."

Difficult Loves is eleven very short stories in which Calvino is like a biologist at a microscope: analysing the sensation of a few minutes or hours in minute detail, revealing the patterns, beauty, and secrets of the mundane. They reminded me a little of Nicholson Baker ' s The Mezzanine, published 30 years later (see my review [HERE](#)). Realistic moments, rather than fantastical, and despite the titles, most are not really love stories, nor adventures.

Venti racconti d'amore, storie di coppie che si incontrano ma, soprattutto, di coppie che non si incontrano. Il rapporto amoroso visto come gioco combinatorio.

In a collection of stories written during the 1940s and 1950s, the author captures moments of revelation in the lives of ordinary people, instants blending recognition and alarm as deceptions and illusions are laid bare

This anthology highlights the rich range of modern Italian fiction, presenting the first English translations of works by many famous authors. Contents include fables and stories by Italo Calvino, Elsa Morante, Alberto Moravia, and Cesare Pavese; historical fiction by Leonardo Sciascia and Mario Rigoni Stern; and little-known tales by Luigi Pirandello and Carlo Emilio Gadda. No further apparatus or reference is necessary for this self-contained text. Appropriate for high school and college courses as well as for self-study, this volume will prove a fine companion for teachers and intermediate-level students of Italian language and literature as well as readers wishing to brush up on their language skills. Few recent writers have been as interested in the cross-over between texts and visual art as Italo Calvino (1923-85). Involved for most of his life in the publishing industry, he took as much interest in the visual as in the textual aspects of his own and other writers' books. In this volume twenty international Calvino experts, including Barenghi, Battistini, Belpoliti, Hofstadter, Ricci, Scarpa and others, consider the many facets of the interplay between the visual and textual in Calvino's works, from the use of colours in his fiction to the influence of cartoons, from the graphic qualities of the book covers themselves to the significance of photography and landscape in his fiction and non-fiction. The volume is appropriately illustrated with images evoked by Calvino's major texts.

Tommasina Gabriele's critical text addresses the paucity of intertextual studies on the erotic in Calvino's work. While *Se una notte d'inverno un viaggiatore* and *Le cosmicomiche* have generated some attention to the erotic, eros nonetheless remains virtually unexplored in its widest scope - despite its prevalence

and centrality in the majority of Calvino's narratives, from his *Racconti* to *I nostri antenati* to his posthumous, unfinished *Sotto il sole giaguaro*. Perhaps for this reason such texts as *Gli amori difficili* and *Sotto il sole giaguaro* have been discussed less by critics than many of Calvino's other neorealist or postmodern fictions. Gabriele's study begins with an assessment of the critical context in which Calvino has been framed and proceeds to the analysis of several articles in which Calvino addresses the erotic in literature. Using these articles and a pivotal interview as a theoretical base, Gabriele offers an explanation for the neglect of the erotic motif as well as a theory of eros in Calvino's work. She uncovers the apparent contradiction that while Calvino repeatedly advocated - throughout his career of forty-plus years - a precise language, this call for precision did not extend to erotic subject matter, where Calvino sometimes felt that "direct representation" was virtually impossible. Gabriele finds that in Calvino the challenge of erotic representation is linked to the complexity of the writer's role, especially as articulated in Calvino's famous article, "Cibernetica e fantasmi." Through this erotic lens, Gabriele examines *Il barone rampante* and the stories of *Le cosmicomiche*, *Gli amori difficili*, and *Sotto il sole giaguaro*, which establish the erotic as a fundamental and usually positive aspect of human identity and interaction. In *Le cosmicomiche*, she unveils a "spiral" movement which functions both as a symbol of Calvino's erotic theory and as a symbol of Calvino's circumlocutory approach to it. In *Gli amori*, she explores the difficulty in expressing the erotic, while offering an alternative interpretation - a "positive" one - of these often criticized characters and stories. Finally, Gabriele identifies the magnitude of the erotic motif in "*Sotto il sole giaguaro*." Calvino reveals the negative side of eros in this brilliant, ambitious, and tightly knit story which interweaves sexual, historical, religious, cultural, and artistic struggles for power.

The author's second collection of imaginative stories about the evolution of the universe transcends the boundaries of space and time while mixing comedy with higher mathematics

From the acclaimed, genre-bending Italian fabulist author, a posthumous collection of career-spanning stories previously unavailable in English. “Everybody telephones everybody at every possible moment, and nobody can speak to anybody . . . Distance has been the warp that supports the weft of every love story.” —from *Numbers in the Dark* Written between 1943 and 1984, the stories in *Numbers in the Dark* span the career of one of fiction’s modern masters: from Italo Calvino’s earliest fables, to tales informed by life in World War II – era Italy, to the delightful experimentation that would define his later work. Here are speculative stories on life in the digital age, genre-bending wonders, and “impossible interviews” with the likes of Montezuma and a Neanderthal. Deftly translated by Tim Parks, *Numbers in the Dark* shows off Calvino’s lifelong gift for subtle humor and shimmering philosophical insight. Praise for *Numbers in the Dark* “*Numbers in the Dark* is a glorious grab-bag . . . [with] enough gems from every phase in Calvino’s career to make it feel indispensable.” —*Seattle Times* “These stories reward the patient reader with wisdom, humor, and insight.” —*Library Journal* “Calvino . . . is well-represented in this continually surprising collection Novelist Parks’s superb translations capture Calvino’s quirky, iconoclastic voice, helping to make this a worthy addition to the Calvino shelf.” —*Publishers Weekly*

Twelve stories by the brilliant Italian author employ the history of science and the poetic imagination to ring changes on the theme and activity of creation

This thesis explores the representation of the feminine in two of Italo Calvino's early collections, *I nostri antenati* and *Gli amori difficili*, using the Pygmalion paradigm as the theoretical framework and adopting a feminist approach. The Pygmalion paradigm concerns the creation by a male 'artist' of a feminine ideal and highlights the artificiality and selfreflecting narcissistic desire associated with the creation process. I emphasise Calvino's active and deliberate work of self-creation, accomplished through extensive selfcommentaries in which he directed critical attention as much by what he omitted to say as by what he stressed, and highlight both the lack of importance Calvino placed on the feminine in his narratives and the relative absence of critical attention focused on this area. Relying on the analogy between Pygmalion's pieces of ivory and Barthes's 'seme' and drawing upon the ideas underlying Kristevan intertextuality, I demonstrate that, despite Calvino's professed lack of interest in character development, his female characters are carefully and purposefully constructed. In this feminist reading, I illustrate that Calvino's favouring of weightless writing and economy of expression, accomplished through his use of well-recognised literary tropes, stereotypical forms and ideas, and by his borrowings from the literary canon, all of which derive from a strongly patriarchal heritage, results in female characters that overwhelmingly reflect their androcentric inspiration. Approaching through the narcissism, fetishism and Oedipal themes, and the associated fear of castration that accompanies Pygmalion's creative gesture, I reveal the substantial psychological substratum underlying Calvino's narratives and challenge his professed lack of interest in the psychological dimension. A close reading of Calvino's narratives, engaging directly with Freud, Lacan and the feminist psychoanalytical thinking of Kofmann, Kristeva, Kaplan and others, demonstrates how Calvino uses his female characters as foils for the existential reflections of his typically maladjusted and narcissistic male characters. Finally, a detailed examination of the deliberations of Calvino's rare female protagonists discloses reasoning that is, at

times, androcentric to the point of being laughable to the modern female reader.

"Technologies of Gender builds a bridge between the fashionable orthodoxies of academic theory (Lacan, Foucault, Derrida, et al.) and the frequently-marginalized contributions of feminist theory. . . . In sum, de Lauretis has written a book that should be required reading for every feminist in need of theoretical ammunition—and for every theorist in need of feminist enlightenment." —B. Ruby Rich " . . . sets philosophical ideas humming. . . . she has much to say." —Cineaste "I can think of no other work that pushes the debate on the female subject forward with such passion and intellectual rigor." —SubStance This book addresses the question of gender in poststructuralist theoretical discourse, postmodern fiction, and women's cinema. It examines the construction of gender both as representation and as self-representation in relation to several kinds of texts and argues that feminism is producing a radical rewriting, as well as a rereading, of the dominant forms of Western culture.
