It is the idea that those who seek to help others are doing so because they are, in turn, helping themselves. It does not matter whether you are a teacher, a writer, a physician or an accountant: if you have a desire to help others because of a difficult past, this could very well be you.

The first fully-illustrated biography of Carl Jung, the great 20th-century thinker famous for his pioneering exploration of dreams, the unconscious, and spirituality in psychology. The Routledge Handbook of Critical Pedagogies for Social Work traverses new territory by providing a cutting-edge overview of the work of classic and contemporary theorists, in a way that expands their application and utility in social work education and practice; thus, providing a bridge between critical theory, philosophy, and social work. Each chapter showcases the work of a specific critical educational, philosophical, and/or social theorist including: Henry Giroux, Michel Foucault, Cornelius Castoriadis, Herbert Marcuse, Paulo Freire, bell hooks, Joan Tronto, Iris Marion Young, Karl Marx, Antonio Gramsci, and many others, to elucidate the ways in which their key pedagogic concepts can be applied to specific aspects of social work education and practice. The text exhibits a range of research-based approaches to educating social work practitioners as agents of social change. It provides a robust, and much needed, alternative paradigm to the technique-driven 'conservative revolution' currently being fostered by neoliberalism in both social work education and practice. The volume will be instructive for social work educators who aim to teach for social change, by assisting students to develop counter-hegemonic practices of resistance and agency, and reflecting on the pedagogic role of social work practice more widely. The volume holds relevance for both postgraduate and undergraduate/qualifying social work and human services courses around the world.

Countertransference is an important part of the analytical process. It is concerned with the analyst's emotional response to the patient. As such, it can be a particularly difficult aspect of the analytical setting and especially so because of the threat of possible sexual involvement with the patient. At present there is little available on this difficult topic. Jungian analyst David Sedgwick tackles the subject bravely and shows how to use the countertransference in a positive way. The result is one of the finest Jungian clinical texts of recent years.

A hope-filled and profoundly simple book that speaks directly to those who want to be of service in their church or community, but have found the traditional ways often threatening and ineffective. In this book, Henri Nouwen combines creative case studies of ministry with stories from diverse cultures and religious traditions in preparing a new model for ministry. Weaving keen cultural analysis with his psychological and religious insights, Nouwen has come up with a balanced and creative theology of service that begins with the realization of fundamental woundedness in human nature. Emphasizing that which is in humanity common to both minister and believer, this woundedness can serve as a source of strength and healing when counseling others. Nouwen proceeds to develop his approach to ministry with an analysis of sufferings—a suffering world, a suffering generation, a suffering person, and a suffering minister. It is his contention that ministers are called to recognize the sufferings of their time in their own hearts and make that recognition the starting point of their service. For Nouwen, ministers must be willing to go beyond their professional role and leave themselves open as fellow human beings with the same wounds and suffering—in the image of Christ. In other words, we heal from our own wounds. Filled with examples from everyday experience, *The Wounded Healer* is a thoughtful and insightful guide that will be welcomed by anyone engaged in the service of others.

Based on the psychology of Carl Jung, this illuminating new book invites coaches to extend their toolbox with deep, creative, and efficient professional methods that derive from a new perspective on coaching. In using the unconscious archetypes as a practical active psychological database for change, the Jungian coach can contribute significant modification in the coachee's expected behavior. Jungian Coaching can be applied in evaluating the coachee, the team, and the corporation. This book translates Jungian psychology into simple comprehensive concepts. Each chapter translates theoretical concepts and rationale to the practice of coaching. Illustrated with practical examples from the corporate world and life coaching, it offers Jungian Coaching tools and techniques. By integrating the Gestalt psychology principle of the "here and now" into Jungian concepts, the author develops a new coaching tool that enables an activation of archetypes as a useful and empowering coaching experience. A valuable introductory resource for all those involved in coaching relationships, this book can empower coachees and serve as a compass for personal growth. It will be of great interest to practicing coaches, executives, human resource managers, consultants, and psychotherapists.

In this, the first full-length biography of the great Swiss psychologist, Carl Gustav Jung is remembered not only for his valuable contribution to psychotherapy and to our understanding of the inner workings of the mind, but for the enduring controversies he sparked. In Frank McLynn's capable hands, readers will come to understand the man who originated what are widely held to be some of the greatest ideas of this century.

In this definitive introduction to the work of C. G. Jung, Dr. Robertson explains how Jung reintroduced Westerners to the world of archetypes--the imagery of the collective unconscious, of mythology, and the symbols in nature. He discusses the structure and dynamics of the psyche, the meaning of dreams, the shadow, the anima/animus, and the mysterious figure of the Self. This practical yet inspiring introduction can make Jung's exciting philosophy/psychology part of your life.

Through their work with their clients, their own experiences, and studies in myth, mysticism, and alchemy, the authors have traced the emergence of a new spiritual paradigm in which the divine seeks wholeness through and with us. Many of us are having experiences that bring us in contact with a being who seems to exist independently in the realm beyond the psyche, or what the authors term "the psychoid." This being, the ally, challenges and helps us along our way to individuation. The ally represents our divine counterpart and works with us, if we are willing, to help heal the schism between and within the divine and us. The authors show us how to contact and consciously enter into a relationship with the ally through our dreams and by employing what C. G. Jung termed "active imagination." When we work with the ally to transform ourselves, the divine transforms as well, all three elements co-creating a whole being. The authors explore the ally's parallels in mystical traditions such as Sufism and alchemy, and how the ally differs from angelic beings. They also present an exciting new view of various creation myths, revealing that salvation exists beyond the "vault of heaven" for God and human alike.
