I recently picked up a John Deere L120 with a 20 horsepower Briggs & Stratton Intek (V twin). When I picked it up, the mower didn't run but would crank, I put in fresh fuel, new spark plugs, new oil and a new oil filter. The mower ran after that but very rough. I determined the carburetor was dirty and cleaned it.

a detailed analysis of the state of democracy in each country or territory, and shows how each is different and distinctive, whilst simultaneously drawing out important similarities. Further, it provides up to date analysis of political changes in the region relating to the processes of democratization, and, in some cases, to the ongoing quest for democracy. Critically examining the current state of political development in the region, the chapters explore the issues and problems that challenge the region's governments in terms of democratic transition,
