Heather Grab | Ecology of Agricultural Landscapes. My goal in both my personal and professional life is to explore ecologically grounded, sustainable agricultural practices. Whether it's on my farm in the Finger Lakes or as a Postdoctoral Researcher in the Department of Entomology at Cornell, I strive to share with others a passion for good food and an understanding of the impact agriculture has on our environment.

The Ecology of Agricultural Landscapes: Long-Term Research ...

Evidence has been mounting for some time that intensive row-crop agriculture as practiced in developed countries may not be environmentally sustainable, with concerns increasingly being raised about climate change, implications for water quantity and quality, and soil degradation. This volume synthesizes two decades of research on the sustainability of temperate, row-crop ecosystems of the ...

The Ecology of Agricultural Landscapes: Long-term Research ...

The Ecology of Agricultural Landscapes: Long-term Research on the Path to Sustainability. This volume synthesizes two decades of KBS LTER research on the ecology of row-crop ecosystems of the U.S Midwest. Fifteen chapters provide overviews of the many components of agricultural ecosystems and landscapes that intersect to provide a rich variety of ecosystem services in addition to agronomic yield.

Particular emphasis is placed upon the way that landscapes are changing under differing policies of agricultural subsidy including the EU Common Agricultural Policy. This is an ideal resource for graduate students and researchers in landscape ecology and agriculture as well as policy analysts working in the agricultural sector.
