Pearl Littlefield's first assignment in fifth grade is complicated: She has to write an essay about her summer. Where does she begin? Her dad lost his job, she had to go to a different camp—one where her older sister Lexie was a counselor-in-training (ugh!)—and she and her good friend James Brubaker III had a huge fight, which made them both wonder if the other kids were right that girls and boys can't be good friends and which landed one of them in the hospital. And there's much, much more on the list of good and bad things, as Ann Martin takes this appealing

character into new adventures through which young readers will see that good or bad, life is what happens when you're making other plans.

'I'm six years old and having a life crisis.' 'Are you my mummy?' is the question I could never ask because I love both my mothers equally: Tyna, the tiny one and Bigga, who is bigger. I haven't got a daddy either, and it seems rude to ask'. This is a sharp and entertaining true story, beginning in war-torn London, of how the author navigated her way through family passions and oddities, secrets and multiple identities. On the way she encounters a Christmas pudding sent annually care of the Bank of Scotland; sitting on a Tutor's cat during a Cambridge University interview; running the family corner shop as a school girl; discovering a cache of beautiful postcards from all over Europe; and the seaside wedding of one of her mothers. 'One of my mothers is has yet another stroke. I'm by her side when the consultant points to a scar on her belly and asks her what it is. Silently she raises her hand and gestures towards me. A Caesarean section all those years ago. I am her daughter. We never speak of it'. 'After Bigga and Tyna died, I begin a paper trail to find news of my father. One morning I walk across Westminster Bridge to meet a half-sister. I have been an only child for 50 years. Over lunch I discover that I am the sixth of seven siblings born to four women - and I have a famous Swiss grandfather'. The book ends by tackling some questions I'm often asked, such as: Were your mothers lesbians? Does a child need a father? Is the past good for you? Do therapists help?'

The most revealing and interesting writings of American artist Thomas Eakins are the letters he sent to family and friends while he was a student in Paris between 1866 and 1870. This book presents all these letters in their entirety for the first time; in fact, this is the first edition of Eakins's correspondence from the period. Edited and annotated by Eakins authority William Innes Homer, this book provides a treasure trove of new information, revealing previously hidden facets of Eakins's personality, providing a much richer picture of his artistic development, and casting fresh light on his debated psychosexual makeup. The book is illustrated with the small, gemlike drawings Eakins included in his correspondence, as well as photographs and paintings. In these letters, Eakins speaks openly and frankly about human relationships, male companionship, marriage, and women. In vivid, charming, and sometimes comic detail, he describes his impressions of Paris--from the training he received in the studio of Jean-Léon Gérôme to the museums, concerts, and popular entertainments that captured his imagination. And he discusses with great insight contemporary aesthetic and scientific theories, as well as such unexpected subjects as language structure, musical composition, and ice-skating technique. Also published here for the first time are the letters and notebook Eakins wrote in Spain following his Paris sojourn. This long-overdue volume provides an indispensable portrait of a great American artist as a young man.
